The Office you already know and love just got even better. With **Microsoft 365 Business Standard FPP (Full packaged boxed product) and ESD (Electronic software distribution product)**, small and medium-sized businesses like yours can get the most complete Microsoft solution to date as easily as installing a single desktop version on each PC. And you don't even need your own domain to get started.

Do more with Microsoft

With every subscription to Microsoft 365 Business Standard, you'll get premium versions of the Microsoft apps you already know and use — **Word, Excel, PowerPoint, and Outlook** — plus **Publisher**,¹ **Access**,¹ and **SharePoint Online**. You'll also get **Microsoft Teams** to collaborate, schedule meetings, have conversations, hold conferences, and share files so you can be more productive.

In addition, Microsoft 365 Business Standard includes products designed specifically for the needs of small and medium-sized businesses like yours. For instance, with the **Microsoft Bookings** online and mobile app, you and your customers can more easily schedule and manage appointments.
