Kaspersky
Anti-Virus –
only Windows
application

The screenshot shows the Kaspersky account management interface. At the top, the 'Kaspersky Anti-Virus' subscription is listed with a status of 'Not in use' and an activation code. Below this, a summary bar shows '0 out of 1 device protected' and provides 'Download' and 'Protect another device' options. The interface includes expandable sections for 'My devices' and 'Apps'. The 'Apps' section is currently expanded, showing a card for 'Kaspersky Anti-Virus' compatible with Windows, with a 'Download' button.

Kaspersky Internet Security – only 3 platforms (Windows, Mac, Android) available

The screenshot shows a user's Kaspersky account dashboard. At the top, the 'Kaspersky Internet Security' subscription is listed as 'Not in use' with an activation code. Below this, it indicates '0 out of 1 device protected' and provides 'Download' and 'Protect another device' options. The dashboard is divided into sections: 'My devices' (with a dropdown arrow) and 'Apps' (with an upward arrow). Under 'Apps', there are three product cards under the heading 'Anti-Virus for 1 device': 'Kaspersky Internet Security' for Windows, 'Kaspersky Internet Security for Mac', and 'Kaspersky Standard' for Android. Each card includes a 'Download' button.

Product composition

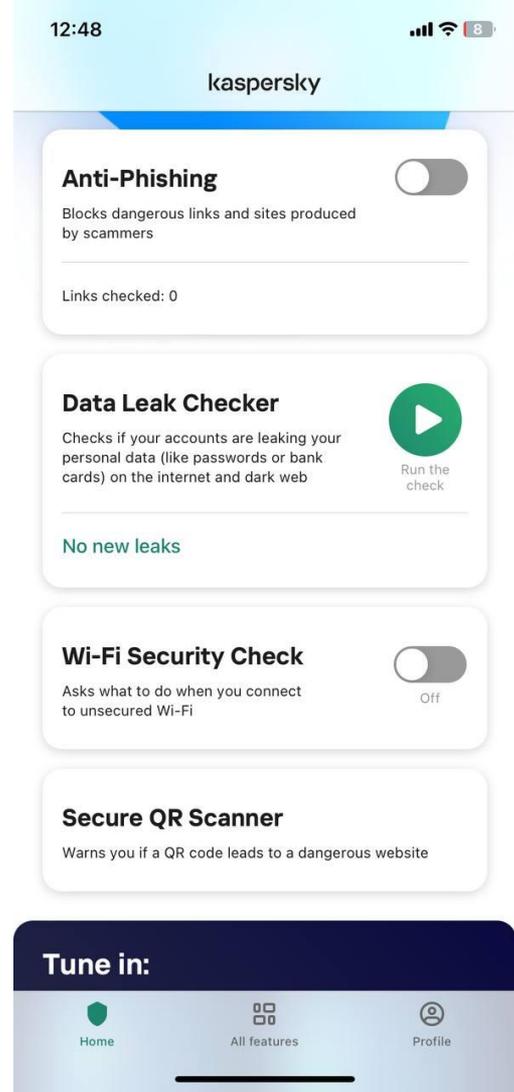

Kaspersky
Standard – all
4 platforms
available

The screenshot displays the Kaspersky Standard product page. At the top, the product name "Kaspersky Standard" is shown with its logo, followed by "Subscription for 1 device". Below this, the subscription status is "Active" and the payment period is "Paid until: Aug 31, 2024". A progress indicator shows "0 out of 1 device protected". To the right, there is a green "Download" button and a "Protect another device" dropdown menu.

Below the main product card, there are two expandable sections: "My devices" (indicated by a downward arrow) and "Apps" (indicated by an upward arrow). The "Apps" section is currently expanded, showing a sub-card for "Kaspersky Standard" with the text "Compatible with Windows, Mac, Android, iOS" and "iOS - 0 out of 1 user protected". A "Download" button is also present in this sub-card.

iOS features with Standard mode

Anti-Phishing feature for iOS is not available for Free and Old Portfolio.

Product composition

Kaspersky
Total Security
– only 3
platforms
(Windows,
Mac, Android)
available. VPN
is not
available.
KSK is
available.

The screenshot displays a selection of Kaspersky security products. It is organized into three sections: 'Anti-Virus for 1 device', '1 user account', and another '1 user account' section. Each product card includes an icon, the product name, compatibility information, and a 'Download' button.

Product Name	Compatibility	Action
