What's new?

Brand new plans are now available!

Our new vision for cybersecurity

We recently created a new security platform that goes way beyond antivirus. Our new streamlined portfolio includes a range of plans — with brand new names — that provide increasing levels of protection. Plans contain both newly-developed and time-tested features that fall into the categories of Security, Performance, Privacy and Identity.

Improved interface and experiences

Based on customer feedback, we've completely redesigned user experience — and introduced an elegant new interface — to make everything easier to use.

Kaspersky Standard

Multi-device security designed to keep pace with your digital life

Kaspersky Plus

Security, performance and privacy across multiple devices to enhance your online world

Kaspersky Premium

Our complete multi-device solution for your security, performance, privacy and identity needs

Choose your perfect Kaspersky plan today

Complete protection to live your best digital life

kaspersky

GBD-11905_O3/23_V1

Beyond antivirus

SECURITY

Everybody should feel safe from cyberthreats.
Get complete security with 4-layer protection that blocks threats in real-time, 24/7.

PERFORMANCE

Embrace your need for device speed.
Our optimization tools rid your devices of junk, so they start up faster and perform better.

PRIVACY

Live your online life without fear.
From webcam protection to security for your chats and accounts, we guard your digital world.

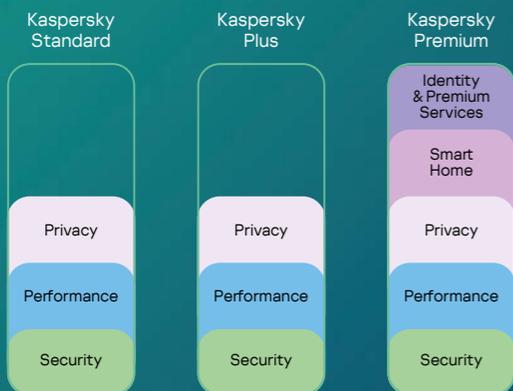

IDENTITY & PREMIUM SERVICES

Stand up to ID theft.
Shield your identity with an encrypted wallet for your sensitive documents, and alerts about leaked passwords.

SMART HOME MONITORING

Protect your smart home and family.
View who is on your home network, and be alerted about intruders and unsafe router passwords.

Growing value with every level

FAQs

I've never heard of Kaspersky, who are they?

Founded in 1997, Kaspersky is one of the world's largest providers of next-generation security solutions that go way beyond antivirus.

- We are present on 6 continents, and 400 million global customers trust us to keep them safe
- Our solutions are powered by machine learning and AI, and we are the most tested and most awarded security vendor by independent experts
- In 2020 we blocked 665 million attacks, including 33 million unique threats, and we have patented over 500 technologies to keep us ahead of the curve

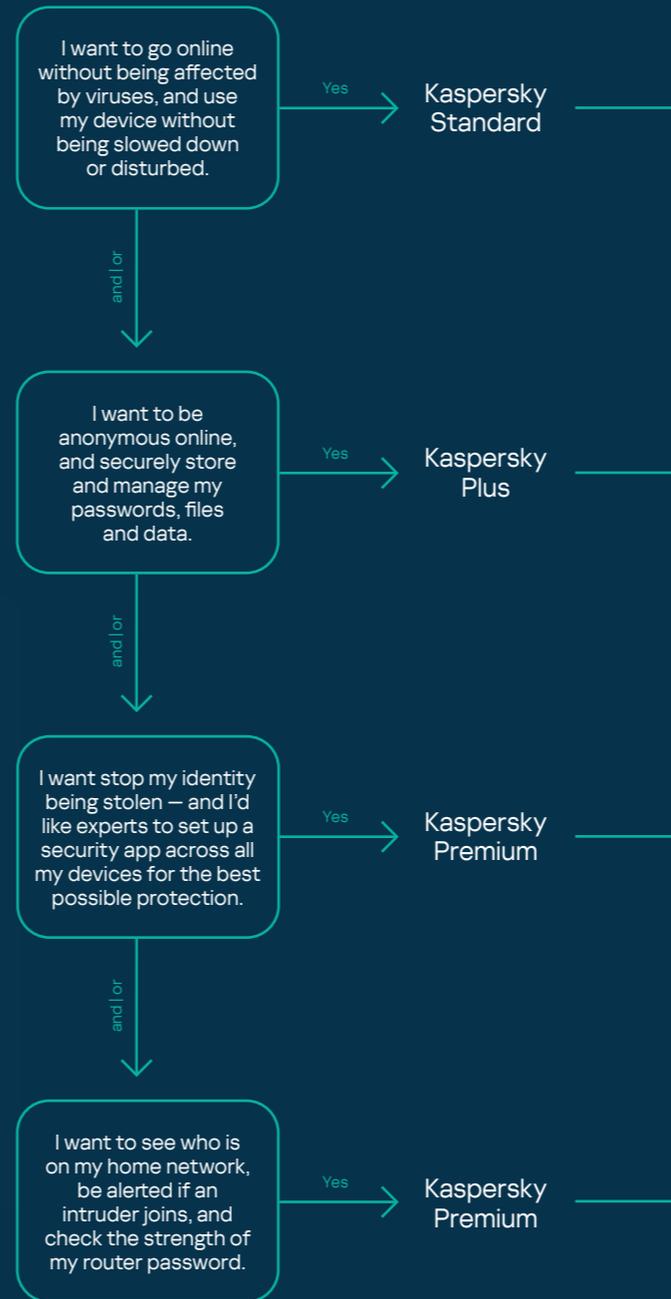

What does "beyond antivirus" mean?

"Beyond antivirus" refers to our very latest technologies and features that do more than just protect devices from viruses and malware.

- Besides traditional cybersecurity, we also offer cutting-edge privacy protection, device-boosting performance tools & Identity protection services
- This reflects today's changing digital threat landscape, and changing user needs
- 1-in-2 Internet users today are worried about social media hacking — which illustrates perfectly why "beyond antivirus" is needed
